Intra-Agent Information Dynamics
Subtask 1.1
detecting ambiguity
Hypothese
$\mathcal{H}_t$
Internal Info
I'm solving...
This task requires information ...
I need to search from sources like...
State M_{t-1}
User Inputs
$\mathcal{U}_t$
Internal Info
Now I obtained...
Reasoning steps...
It seems like...
My next action should be...
State M_t
Subtask 1.2
detecting state drift
Task Goal
$\mathcal{G}$
